**Tab 6 – Validation Rules** provides a description of the set of formulas embedded in the Form performing different sets of controls and as such facilitating the completion of the Form. The information set out below provides further **clarification to this description**.

The formulas linked to the validation rules (and embedded in the Form) have not been modified in any way since the Form was communicated to the national resolution authorities.

Tab	Rule ID	Explanation
6.	Overall Format & Overall Consistency	Only when two rules are violated the overall check will report a “NOK”. Thus, some templates may have a “OK” in their overall format and/or consistency check while one rule has been violated and information shall be corrected.
6.	107	‘4C1’ in cell L20 and O20 shall be read as ‘4C2’. The formula of the corresponding data check is correct.
6.	108	Same data check performed as in rule 126.
6.	114	Same data check performed as in rule 131.
6.	115	Same data check performed as in rule 132.
6.	116	Same data check performed as in rule 133.
6.	117	Same data check performed as in rule 134.
6.	118	Same data check performed as in rule 135.
6.	124	The formula of the data check is incorrect for newly supervised institutions: if the newly supervised institution correctly enters a date between the 01/01/2018 and 31/12/2018 in field ‘1D1’, the check will provide “NOK” that shall be read as “OK”.
6.	158	‘4C4’ in cell L71 should be read as ‘4C7’. The formula of the corresponding data check is correct.
